

Dräger X-plore® 3500 Half Mask

A perfect combination of durability, protection, and comfort. For harsh conditions and long duration use, the Dräger X-plore® 3500 half mask is the first choice.

Dräger „FlexiFit“ head harness

- Innovative, pliable material
- Ergonomic design
- Easy donning and doffing
- Excellent fit, remains in position on every head without trapping any hair
- Good pressure distribution: the head harness does not exert pressure, even under the helmet

Flexible nasal area

- Special design for extra tight fit and good shape – even with safety goggles

Compact „low profile“ design

- Side positioning of the filters and flat construction
- Excellent field of vision
- Good fit for use under protective
- Three sizes (S, M, L) are available to fit every face

Innovative X guide of the harness

- Very easy to adjust
- Optimal weight and stress distribution
- Excellent wearer comfort

„Drop-down“ strap system with neck clips

- Protection during breaks from work as well: The mask can be removed simply by opening the neck clips without removing the helmet
- Protected against contamination in standby position: the mask remains with its inside against the body

Safer bayonet-type connector

- Inserting the filters is easy: both filters are inserted from above and guided down to the connection point
- Cannot be fitted incorrectly

Benefits

Flexible nose area for secure fit

The special design ensures a tight fit without added pressure on the nose bridge, in addition to wearing characteristics that prevent interference with eye protection. The three sizes (S, M, L) ensure a very good fit for every face.

"Low-profile" design

The lateral location of the filters and the shallow design of the mask provide an exceptional field of vision and good wearing characteristics for use under protective visors. Furthermore, the comfortable design leads to a longer wearable tolerance by the user.

"FlexiFit" head harness

The new adaptable material provides an excellent fit on the head without trapping hair. Even under helmets, you won't notice the headgear.

Easily adjustable head harness

The innovative X (crosswise) guides of the harness are easy to adjust and ensure an even weight and pressure distribution, resulting in increased wearer comfort.

Innovative "DrägerFlex" material

Specially developed for the mask body of the Dräger X-plore® 3500, the "DrägerFlex" material combines eudermic properties with excellent resistance and protection.

"Drop-down" harness

The mask can be removed from the face without removing head protection, by simply unclasp the neck fastener. While in the drop-down position, the face-seal portion of the mask remains against the body protecting against contamination.

Versatile use

The Dräger X-plore® 3500 is equipped with two lateral bayonet connections for use with the comprehensive Dräger X-plore® bayonet filter series.
