

Cascade Breathing Air System

One part number - One system the Cascade System is designed to provide breathing air for up to four respirators.

cascade-breathing-air-system-us

Benefits

One part number - One system

The Cascade System is designed to provide breathing air for up to four respirators. Our standard cylinder assembly offers the convenience of "One Part Number - One System". Each system comes standard with inline check valves, gauges, regulator, manifold, low pressure alarm, and four Hansen quick disconnects. The unit is easily expanded by adding whips and additional cylinders.

- One part number - One system
- Inline check valves allow cylinder change-out without shutting down entire system
- Four Hansen quick disconnects
- Cylinders attached by whips with 346 CGA fittings
